**RANCH MARKETING ASSOCIATES OPENS OFFICE IN SHERIDAN, WY, OFFERING COMPLETE RANCH & RESOURCE MANGEMENT SERVICES THROUGHOUT WYOMING AND MONTANA**

Ranch Marketing Associates (RMA), a ranch real estate firm with offices in Aspen, Denver, and Beverly Hills, opens a new office in Sheridan, Wyoming to assist ranch and recreation property owners throughout Wyoming, Montana and surrounding states. Matt Johnston, a fourth generation Wyoming rancher with over 30 years of experience in ranch and resource management, is anchoring the Sheridan office. Johnston's experience includes managing the well known Padlock, Wagonhound, and the Bard ranches.

RMA is also proud to announce its new full-service Ranch and Resource Management program designed to help ranch owners run their ranches more profitably. Ranch owners have many choices to make in order to increase the value of their land, and in many cases, not knowing where to focus spending on improvements, maintenance, etc. results in unnecessary financial waste," says Founding Partner, Ron Morris. "Expanding into northern Wyoming and Montana makes sense due to the large number of agricultural properties in operation today as well as a significant increase in interest for recreational and investment properties throughout the state."

RMA brings over 40 years experience representing high-end recreational and agricultural ranch properties. Partners, Ron Morris and Billy Long, have a combined sales of over 1.5 million acres and over \$400 million in sales, together, they've assembled the most knowledgeable ranch real estate Brokers throughout the West. "RMA Brokers combine unsurpassed marketplace knowledge with extraordinary client service. We "live the life" of Ranchers and possess true insider perspective and knowledge of the land and the ranch real estate industry," Ron explains.
